DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Freeman et al. Freeman et al. (hereinafter Freeman) discloses a pair of pants (10) including a seat portion (26), a waist portion (54), and two leg portions joined thereto. In addition, a zipper (28,31) is disposed between a crotch (18) and a top of the pants that is completely unzippable from a distal end thereof to reveal a selected portion of a wearer, col. 3, lines 8-23 and as shown in figures 2 and 4.

With regard to claim 2, col. 4, lines 45-46, states that the zipper can include two/dual zippers.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 3765

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4, 6, 7, 8, 9, 10, and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Freeman.

Col. 4, lines 45-46, of Freeman states that the zipper on the rear of the pants can include two/dual zippers. Therefore, with regard to claims 4, 6, 7, 8, and 9, it would have been obvious to one skilled in the art that the two zippers can be unzippable from a proximal end thereof which meet near a central seam of the pants as required for a particular application or end use thereof. Furthermore, it would have been obvious the zippers can unzippable to any desired extent thereof as required by the wearer.

With regard to claims 10 and 11, it would have been obvious that the dual zippers of freeman will lie generally in a generally horizontal line.

Allowable Subject Matter

3. Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 5 is allowable because the prior art does not teach or suggest the recitation therein including a pair of pants with a loop joining upper and lower halves of a zipper at a selected distance when the zipper is unzipped.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
